

Global Sourcing Services

“Taking the headache out of dealing offshore.”

Today’s global economy presents more challenges and opportunities to manufacturers than ever before. Whether for production here or in Asia, All Seals Inc. offers its US customers all the cost advantages of an off-shore manufactured product without the risks and complexities inherent in dealing directly with off-shore suppliers. Many firms have placed their outsourcing strategy in our hands to minimize the risk in a supply chain stretching 12,000 miles or more. All Seals Inc. has partnered with a number of well established, world class, global manufacturing operations and an experienced offshore supply network to provide our U.S. customers with consistently high quality products at reduced cost.

Many companies pursuing an outsourcing strategy find it hard to stop and consider risk because they are blinded by the huge savings potential. However, the success of our global partnerships lies in our strengths as a sourcing specialist and our more than three-decades of experience and expertise in all the products we are known for (seals, o-rings and gaskets, metal and plastic parts).

You can rely on All Seals!

In business since 1974, our relevant and successful experience both in selling and purchasing has enabled us to build a large network and develop a strong knowledge of the Chinese market, with quality commitments. We have successful operations in rubber, metal and plastics for a wide variety of industries and applications. We can deliver in the U.S. or anywhere in Asia consistent with lean manufacturing principles. We have experienced engineering and quality personnel watching all our production parts and following all deliveries on the spot in China.

To learn more, or to take advantage of our off-shore sourcing capabilities and expertise in supply chain mechanics for your next application, call All Seals Global Sourcing Services Group at 1 800 331 4051.

Product Listing

Hydraulic and Pneumatic Packings

Disogrin Products
Chevron V-Rings
U-Cups
Wipers
O-Rings
Piston Cups
Backup Rings (Rubber, Teflon
Leather)
Polyseals
Spliced & Special O-Rings
Metric Sizes

Gaskets

Precision Die Stamping from Steel
Rule, Class A Tooling, Laser Cut
and Water Jet

Paper Rubber Sponge Metals
Cork Teflon Fibre Felt
Kapton Mylar Plastics ABS

Custom fabrication of Cellular Materials
Low Compression Set Materials
Conductive Rubber Materials

Teflon Products

For Aerospace and Industrial
Applications
For Low Friction
Spring Loaded Styles
Slipper Seals
Plus Seals and Cap Seals
Channel Seals
Step Seals
Glyd Rings

Mechanical Seals

U.S. Seals: High Volume Distributor
John Crane Inc., Pac Seal Inc.
Flowserve, Eagle Burgmann
Chesterton, ITT Flygt
Refrigeration Seals
Repair service for all types

Lubricants and Sealants

Dow Corning Products
Dispensing Equipment
RTV Adhesives
Specialty Lubricants
Special Packaged Lubricants
UV Adhesives and Curing Systems

O-Rings

Aflas
Buna (every standard size in stock)
Chemraz
Conductive Rubber
Fluoro-Silicone
Kalrez
Metal
Military
Perfluoroelastomers
Polymod
Polyurethane
Silicone
Teflon
Teflon Coated
Teflon Encapsulated
Viton
All Metric Sizes
Miniature and Non-Standard

Quad Rings

All Materials and Sizes Available
Large Stock of Both Buna & Viton

Custom Molded Shapes and Extrusions

Custom design of non-standard
seals and extrusions by our engineers

Metric

O-Rings
Oil Seals
Hydraulic Seals
Cord Stock

Kit Packaging

Other Products

Braided Packing
Bumpers
Cord Stock
Grafoil
Lathe Cuts
Oil Seals
O-Rings Kits
O-Ring Splicing Kits
Piston Rings
Retaining Rings
Rubber Grommets
Sheet Stock
Snap Rings
Teflon Tape
Vibration Mounts

Giant Stock!

- O-RINGS - military & commercial
- QUAD RINGS - complete stock
- DISOGRIN PRODUCTS
- HYDRAULIC - PNEUMATIC PACKINGS
- BRAIDED PACKINGS
- MECHANICAL SEALS
- GASKETS
- KITS
- METRIC SEALS

Adhesives, Sealants and Lubricants

ELECTRO-LITE

Ultraviolet curing adhesives and UV curing lamps, wands, conveyor systems, and accessories.

HUSK-ITT
CORPORATION

Anti-seize lubricants, lubricating greases, lubricating oils, cleaning compounds, valve and pipe sealants.

ADHESIVE SYSTEMS, INC.

Cyanoacrylate and anaerobic adhesives, sealants, and threadlockers. Medical grade cyanoacrylates, one and two part structural acrylic adhesives and two part specialty epoxies.

JENSEN GLOBAL
Dispensing Solutions

A complete line of controllers, valves, syringe systems and accessories, customized automated and programmable units. Pail and drum pumps, meter-mix machines and precision spray coating machines.

SILCO INC.
Application Driven Silicones

One part RTV Silicones, Self-leveling and thixotropic viscosities, neutral cure, acetoxy and Mil Spec versions.

Cyanoacrylate adhesives and anaerobic threadlocking and retaining compounds products, polyurethanes, epoxies, acrylics, standard hot melts, pressure sensitive hot melts, and ultraviolet adhesives.

DOW CORNING

One part RTV's, two part silicone molding products, and silicone greases and fluids.

EPOXY • URETHANE • SILICONE FORMULATIONS

One and two part specialty epoxies, electrically and thermally conductive formulations, filled and unfilled epoxy resins with variable pot life and cure times. Premeasured dual syringe kits, pints, gallons and larger sizes.

Pacer Technology

Cyanoacrylates, anaerobics, gasketing materials and automotive sealants with trade names such as Super GlueJ, Pro Seal7, and Anchor-TiteJ, adhesives for both maintenance and repair and production line assembly are available.

Call Us First...

All Seals, Inc. offers a full line of adhesives and sealants under the All Seals Label, including cyanoacrylates and anaerobic threadlockers. Other products available from various manufacturers include Accumetrics, 3M, Hardman, PolySi Technologies, and General Sealants. Special packaging is also available, from single use pillow paks to specialty cartridges. Complete technical and engineering services available for every application.
