

CAPPLUGS SELECTOR GUIDE

Plugs

Caplugs offers a complete line of plugs designed to protect virtually any product for virtually any application. These plugs can be manufactured from low and high density polyethylene, silicone rubber, paper or vinyl.

Threaded

Plastic and metal screw-in plugs provide protection for internally threaded parts, flared and flareless fittings, SAE O-ring ports, NPT pipe fittings, and tube ends. Threaded plugs are available in straight, NPT, metric and BSP (British Standard Pipe) threads.

ADP SERIES
Aluminum threaded plugs seal flareless tube ends
Pages 112-113

AFO SERIES
Aluminum threaded plugs for flat-faced O-ring fittings
Pages 112-113

ASP SERIES
Aluminum plugs for flared fittings, straight ports
Pages 112-113

BSP SERIES
British Standard Pipe threaded plastic plugs
Pages 112-113

MSP SERIES
Metric threaded plugs with slotted head
Pages 110-111

P SERIES
NPT threaded plugs for pipe fittings
Pages 106-107

PD SERIES
Plastic plugs for flared fittings, straight ports
Pages 110-111

PDE SERIES
Threaded plugs for threaded ports
Pages 108-109

PDF SERIES
Plastic plugs for flat-faced O-ring fittings
Pages 110-111

PDI SERIES
Threaded plugs for boss type & inverted flare fittings
Pages 108-109

PDO SERIES
Threaded plugs for SAE O-ring ports
Pages 108-109

RP SERIES
Machine-threaded plastic plugs
Pages 114-115

RPO SERIES
Dual sealing plugs for flat-faced hydraulic fittings
Pages 114-115

RPO-M SERIES
Metric-threaded plugs for hydraulic fittings
Pages 114-115

UTP SERIES
Universal thread plugs
Pages 114-115

Non-threaded (Tapered or Straight)

These plugs are ideal for plugging threaded and non-threaded parts as well as for providing masking protection for painting, plating, or grid-blasting operations.

Tapered

Tapered plugs are used to protect a wide variety of tubing and threaded or machined parts and ports from dust, moisture and impact damage. These plugs also act as masking protection for painting, plating, powder coating, and anodizing operations.

CPT SERIES
Convenient center-pull tab for easy insertion and removal
Pages 90-91

K SERIES
Flush fitting plug for round tubing
Pages 92-93

L SERIES
Features lift-tab for easy removal
Pages 90-91

PTP SERIES
Tapered paper plugs
Pages 88-89

SFP SERIES
Covers for split-flange hydraulic connections
Pages 92-93

SRP SERIES
Tapered silicone rubber plugs
Pages 94-95

STP SERIES
Provides maximum inside space for packaging tubes
Pages 92-93

T SERIES
Tapered body gives snug fit as plug
Pages 80-83

W SERIES
Wide flange protects adjacent machined surfaces
Pages 86-87

WW SERIES
Wide, thick flange prevents "force-through"
Pages 84-85

WWX SERIES
Extra-wide, thick flange for extended visibility
Pages 86-87

Polaris Vinyl

These soft, flexible plugs are molded from a specially formulated vinyl to provide a snug, clinging fit for maximum protection.

TP SERIES
Tapered and soft vinyl plugs
Pages 104-105

VTP SERIES
Flexible vinyl, tapered plugs
Pages 104-105

Non-threaded (Tapered or Straight)

Straight

Straight plugs are designed to provide snug fitting product protection and easy application and removal.

CEP SERIES
Conductive plugs for dissipating electrostatic charges and providing electrical shield over ends of threaded and non-threaded connectors
Pages 96-97

DP SERIES
Conductive plugs to dissipate electrostatic charges and provide mechanical protection and electrical shielding of ITT Cannon-style connectors
Pages 96-97

EP SERIES
Plugs for threaded or smooth connectors
Pages 88-89

BP SERIES
Recessed button plugs close sheet metal holes
Pages 98-99

BPF SERIES
Flush button plugs close sheet metal holes
Pages 98-99

CCF SERIES
Round load-bearing plugs fit ends of tubing on wide range of metal furniture
Pages 102-103

RJ SERIES
Conductive plugs for protecting RJ telephone type connecting jacks on computers
Pages 88-89

SEP SERIES
Static dissipative plugs provide electrostatic discharge protection on threaded or smooth connectors
Pages 96-97

SPP SERIES
Silicone rubber pull-plugs
Pages 94-95

FP SERIES
Flush fitting plugs for square tubing
Pages 100-101

PIP SERIES
Push-in plugs fit SAE thread sizes
Pages 100-101

PIP TAB SERIES
Push-in plugs with convenient pull-tab
Pages 100-101

RER SERIES
Rectangular load-bearing plugs fit special tubing shapes on many metal furnishings
Pages 102-103

SH SERIES
Protects socket head screws and counterbores
Pages 94-95

SQR SERIES
Square load-bearing plugs fit snugly into square tubing
Pages 102-103

CAPPLUGS SELECTOR GUIDE

Polaris Vinyl

With the recent acquisition of Polaris Plastics, Caplugs now offers the largest line of standard and custom vinyl products in the industry. These soft and flexible protective products are molded from a specially formulated, dip-molded vinyl to provide a tight, secure fit. Our full line of vinyl products includes caps, plugs, grips, hanger tips and flange covers. Most of these products are available in nine standard colors, with lengths up to 8", diameters up to 21" and a full range of sizes. Most vinyl products are also available in special formulations for high-temperature applications. Extensive custom designs and capabilities are also available. See pages 8-9 for details.

AN SERIES
Designed to cap AN style fittings
Pages 74-75

DR SERIES
Reusable wrap-around protectors for preventing dents, scratches on tubing
Pages 122-123

EZ SERIES
Flexible vinyl, EZ-Pull caps
Pages 50-51

VHR SERIES
Round caps with side hanger tip
Pages 70-71

VIF SERIES
Vinyl caps for "I" shaped metal frames
Pages 72-73

VMF SERIES
Vinyl caps for "U" shaped metal frames
Pages 72-73

MS SERIES
Designed to cap MS style fittings
Pages 74-75

TP SERIES
Tapered and soft vinyl plugs
Pages 104-105

VAC SERIES
Vinyl caps for "L" shaped frames
Pages 72-73

VNG SERIES
Round finger grips
Pages 68-69

VOR SERIES
Vinyl o-rings to protect tube ends
Pages 66-67

VRF SERIES
Vinyl caps & grips for rectangular applications (flat top)
Pages 64-65

VAS SERIES
Flange covers for American Standard Assoc., Navy & Military flange faces
Pages 58-59

VC SERIES
Round, soft, flexible vinyl caps
Pages 46-49

VCF SERIES
Round soft flexible vinyl cap with a flange
Pages 56-57

VRR SERIES
Vinyl caps & grips for rectangular applications (rounded top)
Pages 66-67

VSC SERIES
Vinyl caps & grips for square applications
Pages 62-63

VSE SERIES
Anti-roll end caps
Pages 62-63

VF SERIES
Flange cover for most joints & flared tubing
Pages 58-59

VFC SERIES
Flexible vinyl caps with flat pull-tab
Pages 52-53

VFE SERIES
Vinyl caps with flat ergonomic pull-tab
Pages 50-51

VSR SERIES
Flange covers that snap securely in place
Pages 60-61

VTP SERIES
Flexible vinyl tapered plugs
Pages 104-105

VVC Vent-a-Cap™ SERIES
Soft, flexible vented caps
Pages 54-55

VHC SERIES
Round caps with center hanger tab
Pages 70-71

VHF SERIES
Rectangular caps with hanger tab
Pages 70-71

VHG SERIES
Round finger grips with hanger tab
Pages 68-69

EDGE LINERS

Wraps

Our protective tape is designed to mask parts during painting, plating, powder coating, anodizing and other finishing applications. These silicone and polyester materials can handle intermittent temperatures as high as 600°F (316°C).

MTB SERIES
Blue polyester masking tape for powder coating
Pages 120-121

MTG SERIES
Green polyester masking tape for powder coating
Pages 120-121

MTK SERIES
Kapton® film tape for powder coating
Pages 120-121

MTS SERIES
Silicone rubber masking tape for powder coating
Pages 122-123

MDG SERIES
Green polyester masking discs
Pages 120-121

MDK SERIES
Kapton® gold masking discs
Pages 120-121

DR SERIES
Reusable wrap-around protectors for preventing dents, scratches on tubing
Pages 122-123

Kapton is a registered trademark of E.I. DuPont de Nemours Inc.

Netting

This tough, stretchable Sleeve-Web® plastic netting comes in tube styles to protect smooth, threaded or cylindrical parts, and in netting sheets for flat, irregular or nesting parts. Special netting is also available for compressed air cylinders and bottles.

SW SERIES/Standard-Duty
Tubular protective Sleeve-Web
Pages 124-125

SW SERIES/Light-Duty
Protective Sleeve-Web with maximum stretch, designed for light-duty applications
Pages 124-125

SW SERIES/Heavy-Duty
Durable Sleeve-Web for maximum impact cushioning
Pages 124-125

CSW SERIES/Special A
Sleeve-Web for protecting the finish and labels on compressed gas cylinders
Pages 126-127

CBW SERIES/Special A
Sleeve-Web for impact protection for bottles of any size and shape
Pages 126-127

PM SERIES/Net Sheeting
For use as separators for stacked parts, or as wraps for large, odd-shaped parts
Pages 126-127

Edge Liners

Our edge liners offer superior protection from bumps and nicks, and cover sharp edges and openings in sheet metal. Grommets are available to protect electrical insulation, hoses and cables installed through holes punched in metal.

CEG SERIES
Conductive edge liners provide ESD and physical protection of edge board connectors and single in-line devices
Pages 116-117

EGL-11 SERIES
For grommeting irregularly shaped holes in sheet metal
Pages 116-117

EGL-12 SERIES
For lining holes and outside edges of sheet metal
Pages 116-117

EGL-22 SERIES
For protecting edges of sheet materials
Pages 116-117

GRO SERIES
Grommets provide electrical insulation; UL listed
Pages 118-119

TES SERIES
One-piece, one-time, positive-locking seal features tamper-evident security and an identification tab
Pages 118-119

Polaris Vinyl

These soft, flexible caps are molded from a specially formulated vinyl to provide a snug, clinging fit for maximum protection.

AN SERIES
Designed to cap AN-style fittings
Pages 74-75

EZ SERIES
Flexible vinyl, EZ-Pull caps
Pages 50-51

MS SERIES
Designed to cap MS-style fittings
Pages 74-75

VMF SERIES
Vinyl caps for "U" shaped metal frames
Pages 72-73

VNG SERIES
Round finger grip
Pages 68-69

VOR SERIES
Vinyl O-rings to protect tube ends
Pages 66-67

VAC SERIES
Vinyl caps for "L" shaped frames
Pages 72-73

VAS SERIES
Flange covers for American Standard Assoc., Navy & Military flange faces
Pages 58-59

VC SERIES
Round, soft, flexible vinyl caps
Pages 46-49

VRF SERIES
Vinyl caps & grips for rectangular applications (flat top)
Pages 64-65

VRR SERIES
Vinyl caps & grips for rectangular applications (rounded top)
Pages 66-67

VSC SERIES
Vinyl caps & grips for square applications
Pages 62-63

VCF SERIES
Round vinyl caps with a flange for easy removal
Pages 56-57

VF SERIES
Flange cover for most joints & flared tubing
Pages 58-59

VFC SERIES
Flexible vinyl caps with flat pull-tab
Pages 52-53

VSE SERIES
Anti-roll end caps
Pages 62-63

VSR SERIES
Flange covers that snap securely in place
Pages 60-61

VVC Vent-a-Cap SERIES
Soft flexible vented caps
Pages 54-55

VFE SERIES
Vinyl caps with flat ergonomic pull-tab
Pages 50-51

VHC SERIES
Round caps with center hanger tab
Pages 70-71

VHF SERIES
Rectangular caps with hanger tab
Pages 70-71

Finishing Parts

Finishing caps are designed for round tubing to improve appearance and protect against nicks and chips.

COF SERIES
Round caps fit over ends of tubing and rods
Pages 44-45

FCR SERIES
Heavy wall cap for round tubing
Pages 44-45

RH SERIES (RHW SERIES)
Finishing and protection for raised-head screws
Pages 44-45

VHG SERIES
Round finger grip with hanger tab
Pages 68-69

VHR SERIES
Round caps with side hanger tip
Pages 70-71

VIF SERIES
Vinyl caps for "I" shaped metal frames
Pages 72-73
